Sir:

**INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(b)**

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicant brings to the attention of the Examiner the listed documents on the attached PTO SB/08 Form. This Information Disclosure Statement is being filed before the mailing date of a first Office Action after the filing of a Request for Continued Examination in the above-referenced application.

A copy of the listed non-patent literature documents is attached.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

The attached documents form part of the prosecution history of copending Application No. 11,361,655, which is a divisional application based on the present application. A copy of that application is already of record.

**Applicant has not submitted Office Actions from copending Application No. 11/361,487, which is also a divisional application based on the present application. Those arguments, by the present Examiner as well as the former Examiner of the present application, are believed to be cumulative to, if not identical to, arguments made by the same Examiners in the present case. If the Examiner would like copies of those Office Actions, please let Applicant know.**

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, Applicant reserves the right to present to the U.S. Patent and Trademark Office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Please grant any extension of time required to enter this Statement and charge any additional required fees to our deposit account No. 05-0221.

Respectfully submitted,

U.S. Patent Appln. No.: 10/796,238
